Colorado Science and Engineering Fair

2017 Regional Fair Scientific Review Committee Report

The Intel International Science and Engineering Fair Rules require every Regional Fair SRC Chairperson to submit a summary report to the Regional Fair Director following the Regional Fair. The Regional Fair Director is to then forward this report to the State Fair as part of the registration process. This information is used in the CSEF report to Intel ISEF to alert them of any problems that local or regional fairs are encountering and to assist in alleviating future problems. Please include comments or suggestions for Intel ISEF from your SRC Chairperson.

Please type or print legibly:

_____
Name of Regional Fair

1. How many projects were examined?   _____

2. How many projects were approved?   _____

3. How many projects failed to qualify for competition, and what were the reasons?   _____

_____

_____

_____

_____

_____
